### *Statement of Events:*

On the morning of 15 October 2026, at approximately 08:30 AM, I was driving my vehicle (TN-07-AX-3921) along Anna Salai towards Guindy. At the traffic signal near Saidapet junction, my vehicle was stopped behind other vehicles waiting for the green light.

While stationary, another vehicle travelling at considerable speed **REAR-ENDED** my car from behind. The impact was severe and I felt a strong jolt. I immediately stepped out and noticed damage to the **rear portion** of my vehicle. The other driver apologised and we exchanged details. I reported the incident to the nearest traffic police station the same day.

I am submitting this claim for the repair of damage caused to my vehicle as a result of this rear-end collision. I request the insurance company to process my claim at the earliest.
